FWD

From customer feedback to clear requirements.

Evidence behind each requirement.
The product manager decides.

BMW HACKATHON

THE CHALLENGE

One complaint. Three possible needs.

Check the feedback against the vehicle.

Customer feedback

- The complaint
- Its source

Customer studies

- The task
- Customer needs

Vehicle features

- Existing features
- What is missing

Market

- Vehicle variant
- Market

What needs to change?

01 **Missing feature**
Add it.

02 **Unavailable feature**
Make it available.

03 **Hard-to-use feature**
Make it easier.

THE SOLUTION

The feedback and the proposal, together

Proposed • not approved

HOW FWD WORKS

From feedback to a reviewed requirement

AI prepares. The product manager decides.

Choose the vehicle

Vehicle, market and features

Check the evidence

Link each finding to its source.

Draft a requirement

Explain the proposed change.

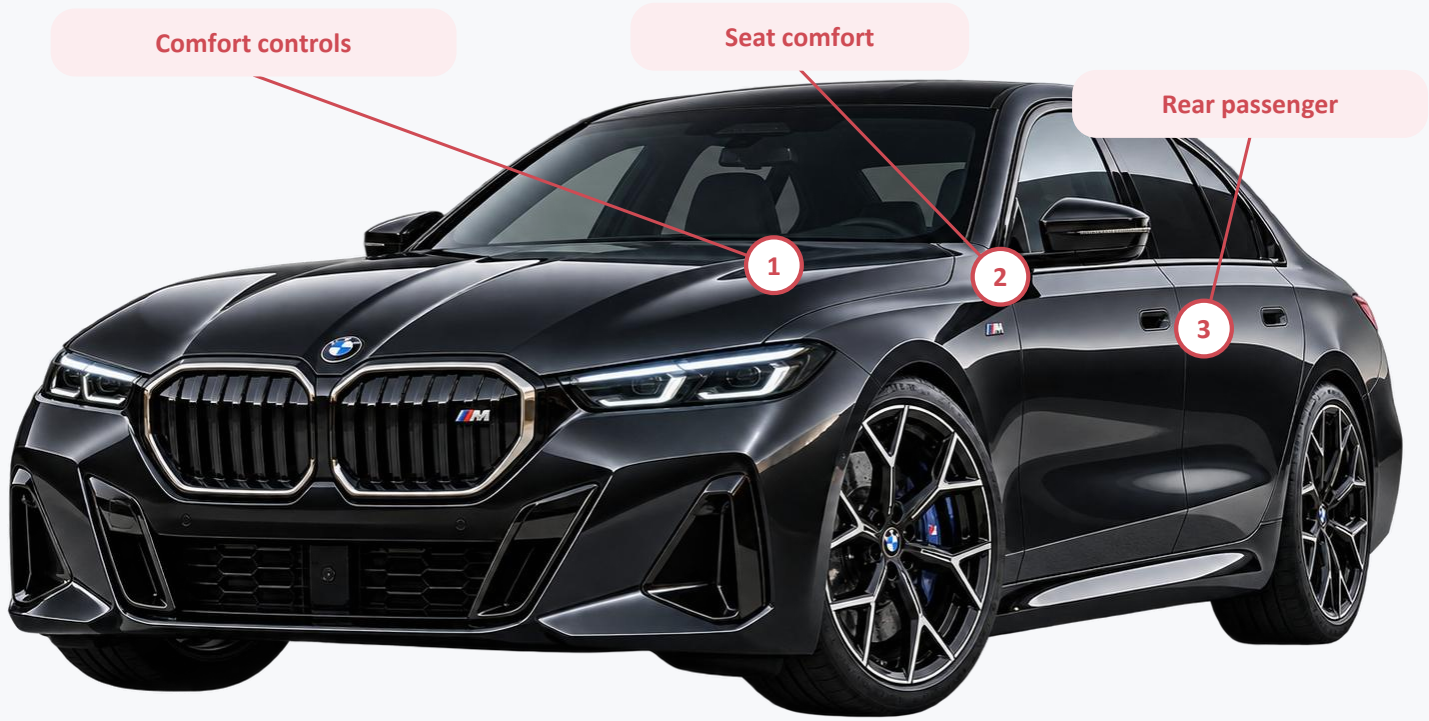

Review and decide

Approve or request changes.

TRACEABLE EVIDENCE

Select a finding. See its source.

Concept screen. Markers show findings.

FOLLOW THE EVIDENCE
